

HTP CALM

HTP Calm is a natural supplement that supports healthy mood and well-being.* The main ingredient – 5-hydroxytryptophan (5-HTP) – is extracted from the plant species *Griffonia simplicifolia*.

5-HTP is a primary metabolite of the amino acid L-tryptophan. Many people may know that the amino acid, L-tryptophan, can induce sleepiness if eaten in high quantities. HTP Calm, on the other hand, doesn't necessarily make you drowsy, but instead works to calm your brain and support relaxation.*

How HTP Calm Works

5-HTP belongs to a class of chemicals known as “nootropics.” These are chemicals that alter brain chemistry to produce a desirable psychological and/or physiological effect (such as improved mood and sense of wellbeing).*

Chemically speaking, 5-HTP crosses the blood-brain barrier and is converted into serotonin – a neurotransmitter that promotes calmness and relaxation. By enhancing the levels of serotonin in the brain, HTP Calm can help support mood, relaxation, neural tissue, and sleep quality.*

Furthermore, there is data that suggests 5-HTP supplementation supports weight loss by reducing food intake.* It is suggested that increased levels of serotonin may help individuals eat less food overall, which in turn impacts body weight.

HTP Calm Supplementation

Since 5-HTP readily crosses the blood-brain barrier, it is effective for increasing serotonin levels in the brain. 5-HTP differs from L-tryptophan in that it doesn't necessarily make you drowsy but instead works to calm your brain and help you relax while still being alert.* That being said, HTP Calm may be useful for better sleep quality since some of it will be converted to melatonin.* Below are some of the most relevant research-backed benefits derived from HTP Calm use:

- Supports relaxation, calmness, and mood*
- Stimulates deeper sleep*
- May support weight loss (in higher doses)*
- Supports neural tissue*

Form: 60 Capsules

Serving Size: 1 Capsule

Ingredients	Amount	%DV
L-5-Hydroxytryptophan (L-5-HTP)	50 mg	*

Other Ingredients:

Rice flour, gelatin (capsule), and magnesium stearate (vegetable source).

Directions:

Take one capsule three times daily on an empty stomach as a dietary supplement, or as directed by your healthcare practitioner.

Caution: *If you are pregnant, nursing, or taking medication, consult your healthcare practitioner before use. Keep out of reach of children.*

GLUTEN-FREE

DAIRY-FREE

NON-GMO
